Dear Village of Long Grove Resident:

On behalf of the Village of Long Grove, we would like to notify you that Geske & Sons, Inc. and their subcontractors are scheduled to begin work on the Village's 2017 Road Maintenance Program the week following Labor Day, weather permitting.

The following roadways will be resurfaced as part of this year's road maintenance program:

Street	From / To
Grant Place	Schaeffer Road to Terminus
Grant Court	Grant Place to Terminus
Rolling Glen Drive	Crestview Drive to Terminus
Crestview Drive	Cuba Road to Terminus
Schaeffer Road	Checker Road to Richmond Lane
Federal Court	Lexington Drive to Terminus
Coach Road	Lexington Road (N) to Old Hicks Road
Lexington Drive	Coach Road to Lincoln Avenue
Coach Road	Lexington Road (S) to Old Hicks Road
OMR Path Paving	Fire Station to Harborchase
Meadow Lane Road	Illinois Route 83 to Osage Lane
Willow Springs	Osage Lane to Terminus
Meadow Lane Road	Willow Springs Road to Osage Lane
Willow Springs Road	Village Limits to Osage Lane
Osage Lane	Willow Springs Road to Meadow Lane
Antietam Drive	Schaeffer Road to Terminus
Pottawatomie Court	Antietam Drive to Terminus

Construction will include asphalt removal (depth varies by street), in-place full-depth pavement pulverization, subgrade preparation and improvements, Hot-Mix Asphalt binder course, Hot-Mix Asphalt surface course, driveway pavement removal and replacement, landscape restoration and other associated improvements. These improvements will not change the roadway width; however, some roads will be raised. Shoulder restoration will include topsoil, seed and hydromulch. After you notice that the hydromulch is placed along the shoulders, we ask for your assistance in watering as you would your own lawn to help establish the grass.

All driveway aprons will be adjusted to match the new pavement edge. Please note that neither the Village nor the contractor can be responsible for damage to private utilities that are in the public right-of-way, for example, pet fences or irrigation lines. If these utilities are damaged, it will be the homeowner's responsibility to make repairs after the scheduled work is completed.

We recognize there may be times of inconvenience for you while the crews are working; however, we do not expect any of the roadways to be closed at any time during construction. However, there will be times the roadways will be limited to one-lane. Transportation and mail will continue to run regular routes. We anticipate completion of this project by September 29, 2017.

If you should have any questions concerning this work, please contact Steve Berecz at 847-344-4503, myself at 847-821-6231 or you can contact the Village Hall at 847-634-9440.

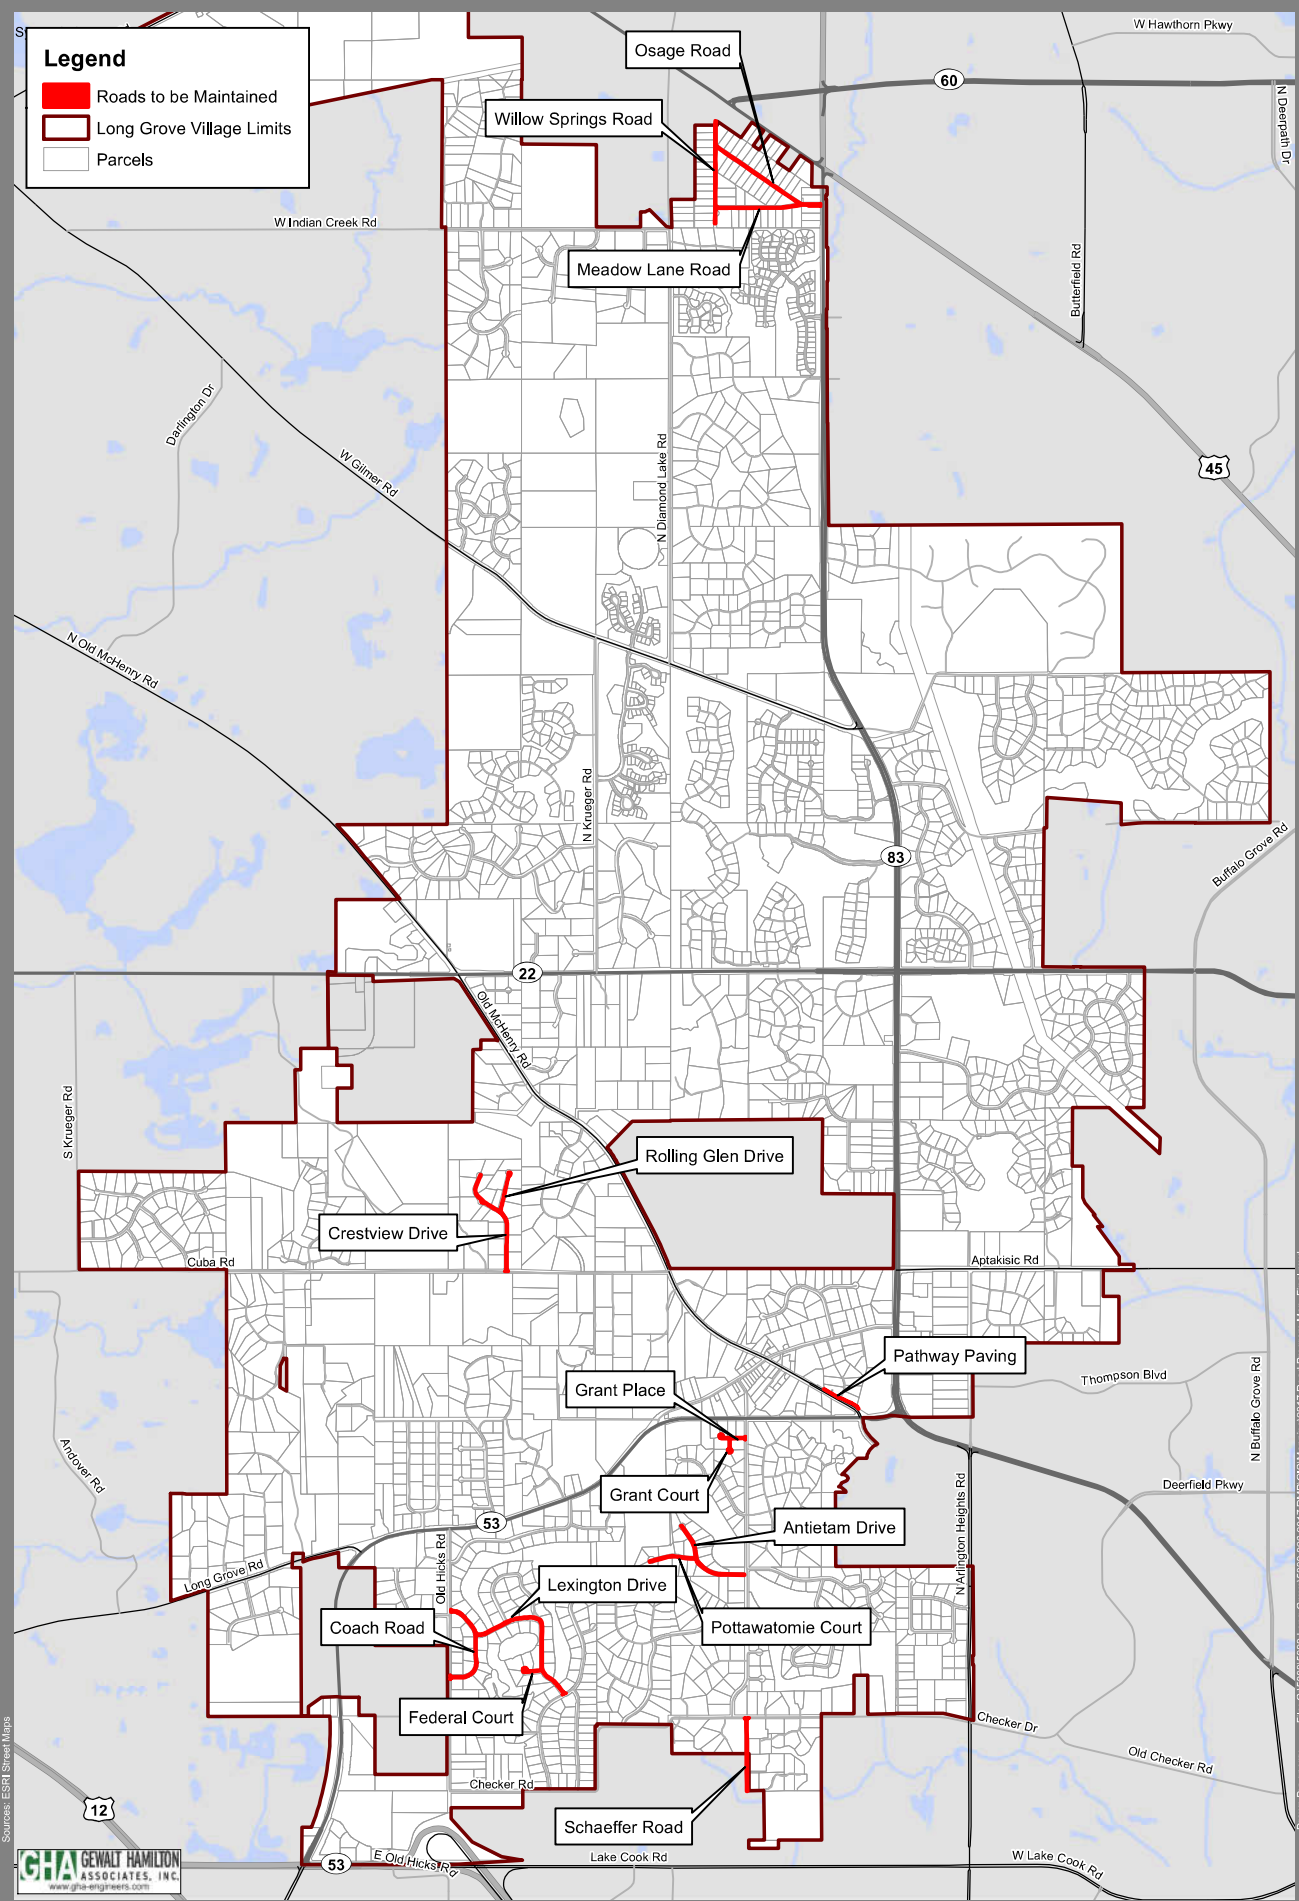

Sincerely,  
Gewalt Hamilton Associates, Inc.

Geoffrey L. Perry, P.E.  
Village Engineer
