RE: Resident Notification
Northwest Water Commission Water System Improvements
Village of Long Grove

www.gha-engineers.com

Dear Village of Long Grove Resident:

On behalf of the Village of Long Grove, we would like to notify you that Merryman Excavation is scheduled to begin work on the Northwest Water Commission's Water System Improvements Project approximately on Monday, June 19. This project is being completed by the Northwest Water Commission, not the Village of Long Grove.

Construction will include installation of a new water main along Arlington Heights Road from Checker Road to Aptakisic Road, which then continues east along Aptakisic Road to Buffalo Grove Road, where it continues south to Lasalle Lane. The Village of Long Grove is adjacent to the work on Arlington Heights Road from Route 83 to Aptakisic Road, where the new 16" watermain will be installed on the west side of the road, within the existing right-of-way.

The contractor is scheduled to mobilize to the site later this week, with work starting approximately on June 19th. For work adjacent to the Village of Long Grove, the watermain crossing Route 83 is scheduled to begin approximately July 11, 2017. This crossing will be installed by directional drilling techniques to minimize ground disturbance. Then, the watermain along Arlington Heights Road from Route 83 to Aptakisic is scheduled to be installed starting approximately August 7th through the end of the month. This pipe will be installed by open cut methods. Any improvements, such as driveways, mailboxes, fences, etc., that are impacted by the construction will be replaced in-kind.

We recognize there may be times of inconvenience for you while the crews are working. Lane closures will occur on Arlington Heights Road at Route 83 in the southbound lanes while the directional drilling operations are completed; the detour route is shown on the next page. Mail delivery will continue during the duration of the project.

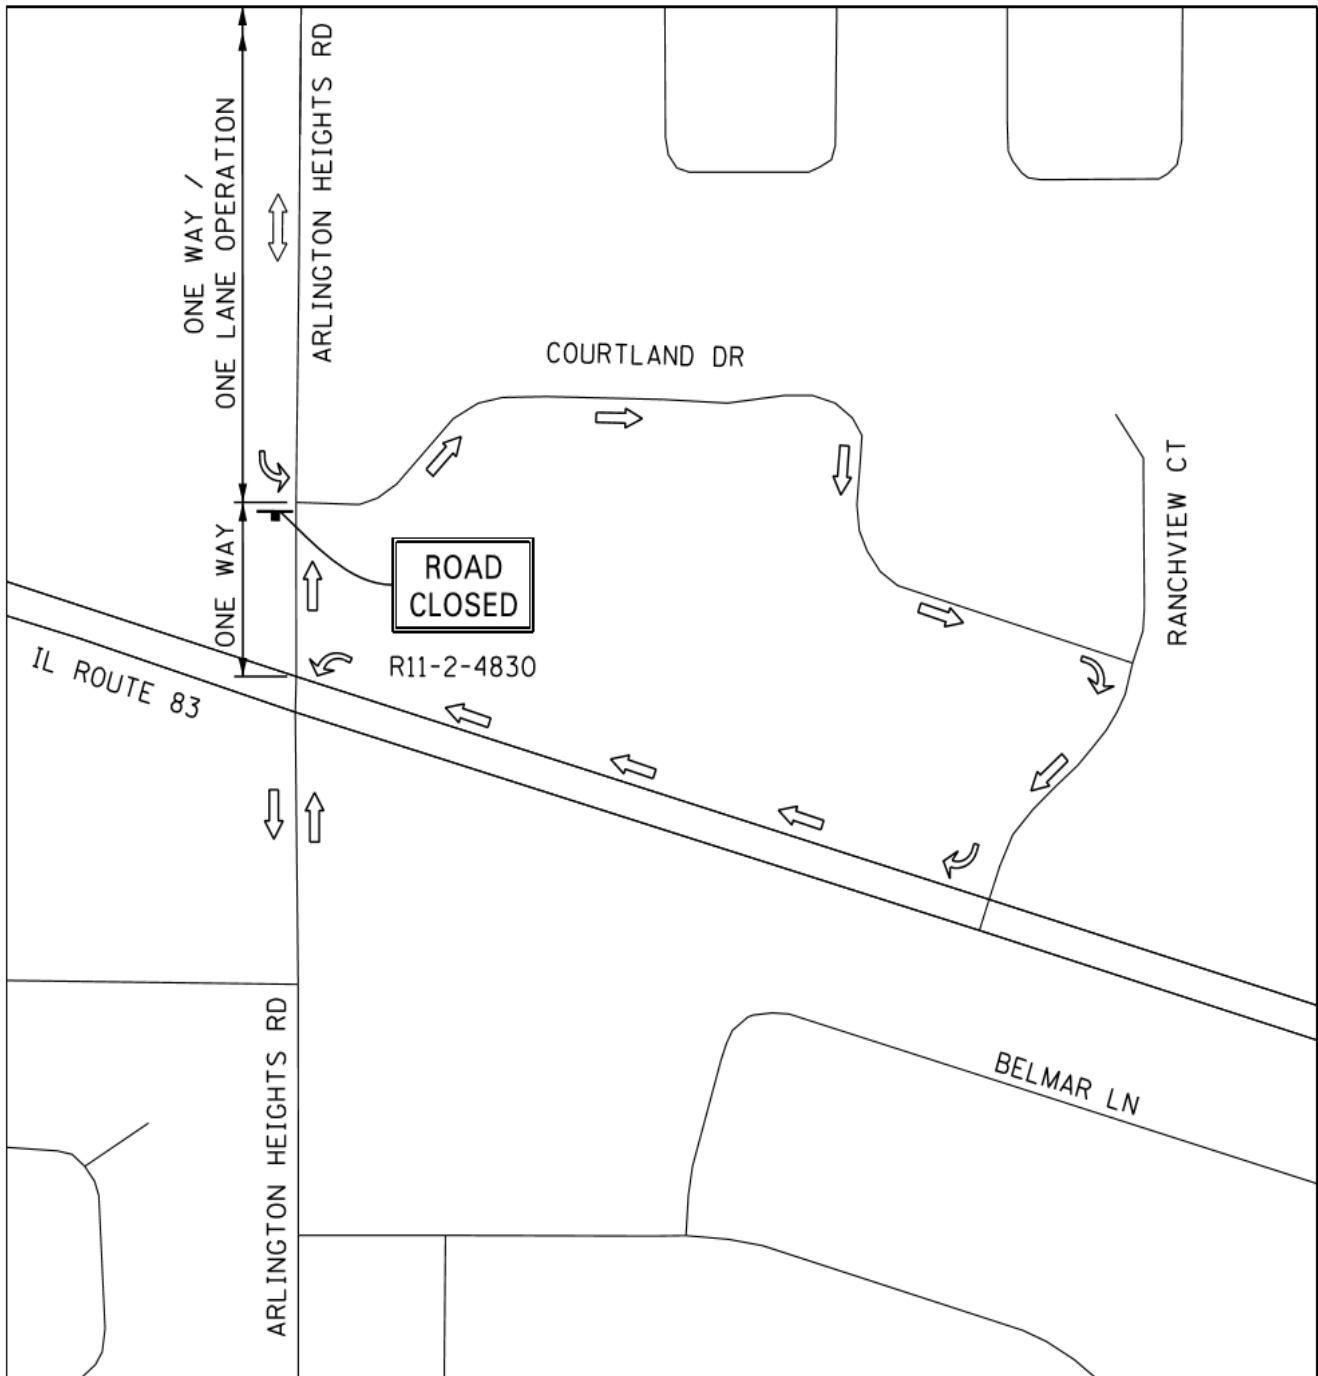

The Northwest Water Commission anticipates completion of this project by approximately October 7, 2017, weather permitting.

If you should have any questions concerning this work, please contact myself at 847-821-6231, Village at 847-634-9440, or the Northwest Water Commission's Resident Engineer, John Spencer at 773-447-1496.

Sincerely,
Gewalt Hamilton Associates, Inc.

Geoffrey L. Perry, P.E.
Assistant Village Engineer

Detour Route for southbound Arlington Heights Road closures at IL Route 83
