Subject: Joanie's deck epansion

Dear members of the Architectural Committee,

In regards to the public hearing scheduled tomorrow 16 May for the proposed deck expansion for Joanie's pizza , our household would like to express our concern regarding the impact this may have on our property and our neighbors.

Our household does not support a deck expansion if the project and expected increase in noise and customer traffic will negatively impact our neighbors and property.

Please consider our concerns as you move forward with the approval process.

V/R
