Subject: Public Comment regards Checker Rd Calming Memo
Date: Friday, February 24, 2023 4:15:32 PM

I read through the choking memo and wanted to respond to the statement "The lack of necessity was the most mentioned complaint as the feedback cited this section of Checker Road does not have common car/pedestrian accidents."

The lack of recent car or pedestrian accidents does not remove the risk or necessity for traffic calming measures. As seen in the following playlist, there have been numerous incidents posing a threat to residents and other drivers. Reducing traffic reduces the chances of an accident occurring in the first place. I would encourage those opposed to traffic calming measures stand at our bus stop, or take a walk along Checker during the morning traffic.
