Received and will add to the file. Thank you Helen.

I've also copied Mr. Osten, our interim Village Manager, here so he can see the comment and you can grab his email address.

Best Regards,
Taylor

Subject: Fwd: Proposed construction at 4359 IL Rt. 22, Long Grove

Please make sure this is added to the comments on the official record and that it is included in the packet when the issue is before the PCZBA.

Please let me know the interim managers email address, but in the meantime please make sure he sees this.

This person should be added to the notice listing as well.

Thanks.

Subject: Proposed construction at 4359 IL Rt. 22, Long Grove

Hello everyone,

For over 13 years, our family has call the area west of North Krueger Rd and north of IL Rt. 22 our home.

The proposed construction at 4359 IL Rt. 22 is a concerning development that contradicts the character of our surrounding community. This area has held onto its rural charm and beauty since the establishment of the Village of Long Grove.

Moreover, the traffic situation on Rt IL 22 between Old McHenry and IL Rt. 22 has consistently caused congestion during daily commutes. Turning onto IL Rt. 222 from North Krueger Rd has been always involved lengthy waits and delays. This intersection has been identified as a dangerous one. If the proposed construction goes ahead, it could turn into a nightmare for local school buses and for residents navigating their daily commutes within our community.

With unwavering conviction, we stand against this proposed construction plan.
