Subject: Reject Proposed Development and Zoning Application at 4359 IL-22  
Dear Ms. Wilson,

We're writing to express our grave concern and strong opposition to the proposed development at 4359 IL-22 by Sai Shiv Mandir et al.

We have been living in the subdivision of Prairie Trail for over 15 years, and enjoying everything Long Grove can offer. Should the proposed development be approved and move forward, irreparable damages would result to our neighborhood and the City of Long Grove.

First, the proposed development would disrupt the continuity of a lush green, peaceful and quiet residential landscape, and a new temple, as proposed, would feel like a dagger piercing in the heart of our residential neighborhood. With this proposed development, our neighborhood would be altered permanently, no longer maintaining the pristine setting that is so iconic of Long Grove.

Secondly, the proposed development would greatly aggravate the existing traffic issues. The single lane of IL-22 in each direction sees heavy congestions daily during rush hours, and the intersection of N Krueger and IL-22 has been accident prone for many years. With the proposed development right at that intersection, the traffic issues would go way beyond just more inconvenience and become very dangerous and even deadly.

With such potentially very negative impacts on the City and the people of Long Grove, I respectfully request you keep the neighborhood residential only, and reject this proposed development.

Yours,

Yongshou Luo & Yun Xie  
4952 Trillium Trail  
Long Grove, IL 60047
