

Long Grove Open Burn Guidelines/Restrictions: (Updated August 11, 2020)

1. Burning of leaves and landscape waste is prohibited.
2. Burning of construction materials, garbage and household/commercial waste are prohibited.
3. Tree branches can be burned in piles measuring 3'x3'x3'. When the fire protection district grants permission, bundles measuring 5'x5'x5' can be burned. Fires over 5'x5'x5' are not allowed.
4. A burn permit is required from the fire protection district to perform an open burn related to prairie conservation. To obtain an open burn permit, an **open burn permit application** must be submitted to the Village. The Village adds the property to a list submitted to the Illinois Environmental Protection Agency (IEPA). Once the Village receives confirmation from the IEPA, you will be notified via email.

For the quickest processing, you can fill this form out online at longgroveil.gov/burning
