INDEPENDENT AUDITOR'S REPORT

The Honorable President
Members of the Village Board
Village of Long Grove, Illinois

We have audited the accompanying financial statements of the governmental activities, the business - type activities, each major fund and the aggregate remaining fund information of the Village of Long Grove, Illinois (the Village) as of and for the year ended April 30, 2020 and the related notes to financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Long Grove, Illinois, as of April 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

The Village adopted GASB Statement No. 83, *Certain Asset Retirement Obligations*, which required a liability and deferred outflow of resources to be recorded in the business-type activities and GASB Statement No. 84, *Fiduciary Activities*, which changed the reporting of certain fiduciary funds. Our opinion is not modified with respect to these matters.

Emphasis of Matter

As part of our audit of the 2020 financial statements, we also audited the adjustments described in Note 13 that were applied to restate the 2019 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review or apply any procedures to the 2019 financial statements of the Village other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2019 financial statements as a whole.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operations, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The combining and individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Village. The combining and individual fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

VILLAGE OF LONG GROVE, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

April 30, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Long Grove, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

a. Reporting Entity

The Village is a municipal corporation governed by an elected seven-member board. The Village operates under a Board-Manager form of government as required by GAAP, these financial statements present the Village (the primary government) and its component units.

Based on the criteria of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, there are no component units for which the Village is considered to be financially accountable.

b. Fund Accounting

The Village uses funds to report on its financial position and the changes in its financial position and cash flows. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The minimum number of funds are maintained consistent with legal and managerial requirements. Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of restricted and committed monies (special revenue funds), the acquisition and construction of capital assets (capital projects funds) and the accumulation of restricted, committed or assigned resources for the payment of principal and interest on general long-term debt (debt service funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or the other departments or agencies primarily within the Village (internal service funds).

Fiduciary funds are used to account for fiduciary activities (e.g., assets held on behalf of outside parties, including other governments). The Village utilizes custodial funds to account for funds received and reserved for debt service on the noncommitment debt.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Interfund services provided and used are not eliminated for this purpose. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expense of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The Open Spaces Fund accounts for the resources legally restricted to supporting expenditures for the open space program.

The Downtown Tax Incremental Financing (TIF) Fund accounts for the resources legally restricted to supporting expenditures for the Downtown TIF Fund.

The Capital Improvement Fund accounts for the costs of various infrastructure improvements to village property. These costs are financed by transfers from the General and Motor Fuel Tax Funds, grants and bond proceeds.

The Village reports the following major proprietary funds:

The Water Fund accounts for the water billings and expenses incurred for providing those services to residents.

Additionally, the Village reports three custodial funds (Interagency Control Fees, Fees Refundable to Others and Heron's Landing SSA). Custodial funds are used to account for special service area collection of taxes from benefited property owners for payment to bondholders where the Village is acting in only an agent capacity.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. The modified accrual basis of accounting is used by all governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period. The Village recognizes property taxes when they become both measurable and available in the period intended to finance. A 60-day availability period is used for

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)

revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, interest revenue and charges for services. Sales and income taxes owed to and fines collected by the State of Illinois at year end on behalf of the Village also are recognized as revenue. Permit revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The Village reports unearned revenue and unavailable/deferred revenue on its financial statements. Unearned revenue and unavailable/deferred revenue arises when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Unearned revenue also arises when resources are received by the Village before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the unearned revenue or unavailable/deferred revenue is removed from the financial statements and revenue is recognized.

e. Cash and Investments

Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Restricted Assets

Certain cash and investments in the Downtown TIF Fund and the Special Service Area Water Fund are restricted in accordance with the ordinances authorizing the issuance of the Limited Obligation Tax Increment Revenue Bonds and 2011 Special Service Area Bonds. These assets are reflected as restricted cash and investments and restrictions of net position.

g. Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds” on the financial statements.

h. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses.

i. Capital Assets

Capital assets which include property, plant, equipment, intangible assets and infrastructure assets (e.g., roads, bridges and storm sewers) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$1,000 for general capital assets and \$15,000 for building, building improvements and infrastructure plus an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

In the case of the initial capitalization of general infrastructure assets i.e., those reported by governmental activities, the Village chose to include all such items regardless of their acquisition date. The Village was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Capital Assets (Continued)

As the Village constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Machinery and equipment	5-10
Infrastructure	10-50
Land improvements	25
Intangible assets	10

j. Compensated Absences

Vested or accumulated vacation and sick leave of proprietary funds and governmental activities is recorded as an expense and liability of those funds as the benefits accrue to employees. These benefits are not material to the financial statements and, therefore, there are no amounts accrued in these financial statements.

k. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium. In the fund financial statements, governmental funds recognize bond premiums and discounts, during the current period. The face amount of debt issued is reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures and expenses.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not spendable in form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board of Trustees, which is considered the Village's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Trustees. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance when deemed necessary or desirable has been delegated to the Village Manager by the Village Board of Trustees. Any residual fund balance of the General Fund or any deficit fund balances are reported as unassigned.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

Effective December 12, 2018, the Village amended its existing minimum fund balance reserve policy. The recommended minimum General Fund reserve balances shall be equal to 100% of the General Fund operating expenses as budgeted. Until such reserve levels are established, the Village annual budget should be balanced or revenue positive. Non-budgeted expenditures reducing the reserve below the minimum established level shall be limited to emergency or crisis situations and shall only be approved after a two-reading process, unless such process is waived pursuant to a 2/3 vote by the Board of Trustees. The Village was in compliance with their policy at April 30, 2020.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net position has not been restricted by enabling legislation adopted by the Village. Net investment in capital assets, represents the book value of capital assets less any long-term debt principal outstanding issued to construct capital assets.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future period(s). In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future period(s) and so it will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period these amounts become available.

n. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. CASH AND INVESTMENTS

The Village and pension funds categorizes the fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Village's investment policy authorizes the Village to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and The Illinois Funds.

The Illinois Funds is an investment pool which was created by the Illinois State Legislature under the control of the State Comptroller that maintains a \$1 per share value which is equal to the participants fair value.

2. CASH AND INVESTMENTS

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than market value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

a. Village Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral held by the Village's agent with a fair value of at least 100% of all bank balances in excess of federal depository insurance.

b. Village Investments

In accordance with its investment policy, the Village limits its exposure to interest rate risk, the risk that changes in interest rates will adversely affect fair value of an investment, by structuring the portfolio to provide liquidity and maximizing yields within a one-year period. In addition, the policy requires the Village to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.

The Village limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in fully collateralized time deposits in financial institutions and money market funds rated AAA by Standard and Poor's. The Illinois Funds are rated AAA by Standard and Poor's.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. CASH AND INVESTMENTS (Continued)

b. Village Investments (Continued)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. The Village's investment policy does not address custodial credit risk.

Concentration of credit risk - The Village's investment policy limits investments to the amount of the portfolio that can be invested in any one investment vehicle as follows:

- With the exception of cash equivalents, treasury securities and time deposits no more than 35% of the portfolio shall be invested in other investment categories;
- No more than 33% of the investment portfolio shall be invested in short term obligations of corporations (i.e. commercial paper);
- As much as 40% of the portfolio may be invested in time deposits when required by the cash flow of the village

3. RECEIVABLES

Property taxes for 2019 attach as an enforceable lien on January 1, 2019 on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about May 1, 2020 and are payable in two installments, on or about June 1, 2020 and September 1, 2020. The County collects such taxes and remits them periodically.

The 2019 taxes are intended to finance the 2021 fiscal year and are not considered available for current operations and are, therefore, shown as unavailable/deferred revenue. The 2020 tax levy has not been recorded as a receivable at April 30, 2020, as the tax attached as a lien on property as of January 1, 2020; however, the tax will not be levied until December 2020 and, accordingly, is not measurable at April 30, 2020.

4. DEFICIT FUND BALANCES

The following funds had a deficit in fund balance as of the date of this report:

<u>Fund</u>	<u>Deficit Balances</u>
Downtown TIF Fund	\$ (8,380,940)

The Downtown TIF Fund deficit is anticipated to be funded with future incremental taxes and other revenues collected over the life of the District.

NOTES TO FINANCIAL STATEMENTS (Continued)

5. CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

GOVERNMENTAL ACTIVITIES	
General government	\$ 59,831
Public works	182,265
Culture and recreation	18,476
Conservation and development	<u>125,883</u>
 TOTAL DEPRECIATION EXPENSE - GOVERNMENT ACTIVITIES	 <u>\$ 386,455</u>

6. LONG-TERM DEBT

a. Changes in General Long-Term Debt

The Village has pledged future tax increment and other tax revenues, net of specified operating expenses, to repay limited obligation tax increment revenue bonds. Proceeds from the bonds provided financing for the Sunset Grove project. The bonds are payable solely from incremental taxes, business district taxes and certain sales tax revenues from property described as the Sunset Grove Property pursuant to the indenture and by other pledged revenues. The remaining pledge as of April 30, 2020 was \$4,454,229 through January 1, 2032. The total pledged revenue during the current year was \$695,274. There were no principal and interest payments on the 2020 Bonds in the current fiscal year.

The Village issued Tax Increment Revenue Refunding Bonds, Series 2020 totaling \$3,600,000 on January 23, 2020. The Village passed an ordinance directing the execution of an escrow agreement in order to refund the Limited Obligation Tax Increment Revenue Bonds, Series 2010 issued by the Village and outstanding in the principal amount of \$3,715,000. This current refunding was undertaken to reduce total debt service payments over the next twelve years by \$695,662 and to obtain an economic gain (difference between the present value of the debt service payments of the refunded and refunding bonds) of \$616,426.

Proceeds in the amount of \$3,079,633 from the refunding bonds along with \$568,780 from the Village's escrow funds were used to execute the escrow agreement. The refunded \$4,500,000 Limited Obligation Tax Increment Revenue Bonds, Series 2010 were called in their entirety on February 22, 2020.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

6. LONG-TERM DEBT (Continued)

a. Changes in General Long-Term Debt (Continued)

Limited obligation bonds payable at April 30, 2020, consist of the following:

	Balances May 1	Issuances	Reductions	Balances April 30	Current Portion
\$4,500,000 Limited Obligation Tax Increment Revenue Bonds, Series 2010 due in on January 1, 2030, interest at 7.50%	\$ 3,715,000	\$ -	\$ 3,715,000	\$ -	\$ -
\$3,600,000 Limited Obligation Tax Increment Revenue Refunding Bonds, Series 2020 dated January 22, 2020, due in annual installments from \$230,000 to \$490,000 plus interest from 2.35% to 3.70% through January 1, 2032.	-	3,600,000	-	3,600,000	230,000

TOTAL	\$ 3,600,000	\$ 854,231	\$ 685,000	\$ 291,402

c. Other Changes in Long-Term Debt

Governmental Activities

During the fiscal year, the following changes occurred in liabilities reported in the governmental long-term liabilities:

	Balances May 1	Issuances	Retirements	Balances April 30	Current Portion
2010 TIF Bonds	\$ 3,715,000	\$ -	\$ 3,715,000	\$ -	\$ -
2020 TIF Refunding Bonds	-	3,600,000	-	3,600,000	230,000
Bond premium	-	3,577	-	3,577	-
Net pension liability	566,451	-	176,798	389,653	-
TOTAL GOVERNMENTAL LONG-TERM LIABILITIES	\$ 4,281,451	\$ 3,603,577	\$ 3,891,798	\$ 3,993,230	\$ 230,000

The General Fund has typically been used in prior years to liquidate the liability for the net pension liability.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

6. LONG-TERM DEBT (Continued)

c. Other Changes in Long-Term Debt (Continued)

During the fiscal year, the following changes occurred in long-term liabilities reported in the business-type activities:

	Balances May 1, as restated	Issuances	Retirements	Balances April 30	Current Portion
2011 Special Service Area Bonds	\$ 735,000	\$ -	\$ 50,000	\$ 685,000	\$ 55,000
Asset retirement obligation	127,000	-	-	127,000	-
TOTAL BUSINESS-TYPE LONG-TERM LIABILITIES	\$ 862,000	\$ -	\$ 50,000	\$ 812,000	\$ 55,000

The Village has recognized an asset retirement obligation (ARO) and related deferred outflow of resources in connection with its obligation to seal and abandon its water wells at the end of its estimated useful life in accordance with federal, state and/or local requirements. The ARO was measured using actual historical costs for similar abandonments, adjusted for inflation through the end of the year. The estimated useful life of the water wells is 100 years.

d. Noncommitment Debt

Special Service Area Bonds outstanding as of the date of this report totaled \$1,565,000. These bonds are not an obligation of the Village and are secured by the levy of real estate taxes on certain property within the special service areas. The Village is in no way liable for repayment but is only acting as agent for the property owners in levying and collecting the assessments and forwarding the collections to bondholders.

7. INDIVIDUAL FUND DISCLOSURES

a. Due From/To Other Funds

Due from/to other funds at April 30, 2020 consisted of the following:

	Due From	Due To
General Fund	\$ 818	\$ -
Downtown TIF	10,968	-
Capital Improvement	-	5,083
Nonmajor Governmental	-	6,703
TOTAL	\$ 11,786	\$ 11,786

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. INDIVIDUAL FUND DISCLOSURES (Continued)

a. Due From/To Other Funds (Continued)

All balances above resulted from the time lag between dates that: (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made. All amounts are expected to be repaid within one year.

b. Advances To/From

Advances to/from other funds at April 30, 2020 consisted of the following:

	Advance To	Advance From
General Fund	\$ 5,857,904	\$ -
Open Spaces	3,741,922	-
Downtown TIF	-	9,599,826
	<hr/>	<hr/>
TOTAL	\$ 9,599,826	\$ 9,599,826
	<hr/>	<hr/>

\$9,599,826 was advanced to the Downtown TIF Fund from the General Fund and Open Spaces Fund to fund the costs incurred in the Downtown TIF capital projects since its inception. These amounts will not be repaid within one year.

c. Interfund Transfers

Interfund transfers during the year ended April 30, 2020 consisted of the following:

	Transfers In	Transfers Out
General	\$ -	\$ 1,651,855
Capital Improvement	1,613,500	-
Downtown TIF	38,355	-
	<hr/>	<hr/>
TOTAL ALL FUNDS	\$ 1,651,855	\$ 1,651,855
	<hr/>	<hr/>

- \$1,613,500 transferred to the Capital Improvement Fund from the General Fund for capital projects. This transfer will not be repaid.
- \$38,355 transferred to the Downtown TIF Fund from the General Fund to reimburse the TIF for amounts owed to the TIF as required by ILCS. This transfer will not be repaid.

8. RISK MANAGEMENT

The Village is exposed to various risks of loss including, but not limited to, employee health, general liability, property casualty, workers' compensation and public official liability. To limit exposure to these risks, the Village has purchased third party insurance. Settlement claims have not exceeded insurance coverage for the current or the three prior years.

9. CONTINGENT LIABILITIES

a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Village expects such amounts, if any, to be immaterial.

10. TAX ABATEMENTS

The Village rebates taxes to recruit, retain or improve local business facilities or their supporting public infrastructure under certain circumstances and as an annexation inducement. The terms of these rebate arrangements are specified within written agreements with the individuals and businesses concerned.

The Village, in conjunction with its Downtown TIF capital project fund, has entered into an agreement with the lead tenant of a shopping center to abate a portion of sales tax. The rebates affect only the Village's share of the State sales taxes and are authorized through the TIF project plan as well as an agreement between the Village and the lead tenant. The first \$1,000,000 collected in municipal sales taxes as generated by the lead tenant remained with the Village and that threshold was reached during fiscal 2016-2017. Subsequent to the \$1,000,000 being collected and retained by the Village, 40% of future municipal sales tax revenues from the lead tenant are to be paid to the lead tenant up to a maximum of \$1,000,000 and 60% is retained by the Village to be committed, along with the first \$1,000,000, to the payment of the TIF-backed bonds. The sales tax abatement amounted to \$130,350 for fiscal year ended April 30, 2020, bringing the total to \$1,000,000 thus far, including the current year. Once the developer has been paid the full \$1,000,000 incentive payment, 100% of all subsequent municipal sales tax generated by the development will be retained by the Village.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. TAX ABATEMENTS (Continued)

In addition, the Village has redevelopment sales tax incentive agreements with local businesses within the downtown tax increment financing district. The determined goal of these agreements is to stimulate private investment by offering incentives to proper and business overs within the Historic Business District relating to improvements of their properties and places of business. Financial incentives in the form of partial reimbursement of verifiable capital improvement costs are subject to the terms and conditions within each agreement. As of April 30, 2020, several agreements were in place and \$1,909 was paid in the current year.

11. DEFINED BENEFIT PENSION PLANS

The Village contributes to a defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement plan. The benefits, benefit levels, employee contributions and employer contributions for all plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or www.imrf.org.

Illinois Municipal Retirement Fund

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2019, IMRF membership consisted of:

	<u>Illinois Municipal Retirement</u>
Inactive employees or their beneficiaries currently receiving benefits	2
Inactive employees entitled to but not yet receiving benefits	1
Active employees	<u>6</u>
TOTAL	<u><u>9</u></u>

11. DEFINED BENEFIT PENSION PLANS (Continued)

Illinois Municipal Retirement Fund (Continued)

Benefits Provided

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the year ended April 30, 2020 was 13.96% of covered payroll for IMRF.

Actuarial Assumptions

The Village's net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions (Continued)

Actuarial valuation date	December 31, 2019
Actuarial cost method	Entry-age normal
Assumptions	
Inflation	2.50%
Salary increases	3.35% to 14.25%
Interest rate	7.25%
Price inflation	2.50%
Asset valuation method	Market value

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Discount Rate

The discount rate used to measure the total pension liability was 7.25% for IMRF and SLEP. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's and SLEP's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	<hr/>

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Village calculated using the discount rate of 7.25% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
	<hr/>	<hr/>	<hr/>
Net pension liability	\$ 689,518	\$ 389,653	\$ 137,630

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

12. OTHER POSTEMPLOYMENT BENEFITS

The Village has evaluated its potential other postemployment benefits liability. The Village provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, no former employees have chosen to stay in the Village's health insurance plan. Additionally, the Village had no former employees for which the Village was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. As a result, the Village has determined that no material liability is required to be reported under GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Therefore, the Village has not recorded any postemployment benefit liability as of April 30, 2020.

13. PRIOR PERIOD ADJUSTMENT

For the fiscal year ended April 30, 2020, the Village has recorded a prior period adjustment to correct the prior year revenue recognition of certain state shared revenues.

The beginning net position reported for the Village has been restated as follows:

	<u>Increase (Decrease)</u>
GOVERNMENTAL ACTIVITIES	
Prior period adjustment	
Correct prior year revenue recognition	<u>\$ (211,955)</u>
TOTAL GOVERNMENTAL ACTIVITIES	<u><u>\$ (211,955)</u></u>
GOVERNMENTAL FUNDS	
Prior period adjustment	
Correct prior year revenue recognition	<u>\$ (19,620)</u>
TOTAL GOVERNMENTAL FUNDS	<u><u>\$ (19,620)</u></u>

In addition, for the fiscal year ended April 30, 2020, the Village implemented GASB Statement No. 84, *Fiduciary Activities*. With the implementation, the Village is required to record the beginning net position of custodial funds.

VILLAGE OF LONG GROVE, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

13. PRIOR PERIOD ADJUSTMENT (Continued)

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

April 30, 2020

1. BUDGETS

The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year. All funds are budgeted on a basis consistent with generally accepted accounting principles. Formal budgets are established for all funds except the Business District Fund and Pathway Grant Fund.

Budget amounts used for comparison in this report are obtained from the Annual Budget and Appropriation Ordinance for the Village. Expenditures may not legally exceed budgeted appropriations at the fund level. The budget amounts included in the financial statements are the final adopted budgets, including all amendments. Appropriations lapse at year end. The Village adopted budget amendments during the fiscal year.

2. INDIVIDUAL FUND DISCLOSURES

The following funds had expenditures in excess of budget:

Fund	Excess
TIF	\$ 450,472
