Re: **Construction Notification**  
2020 Road Maintenance Program  
Village of Long Grove

Dear Village of Long Grove Resident:

On behalf of the Village of Long Grove, we would like to notify you that Arrow Road Construction Company and their subcontractors are scheduled to begin work on the Village's 2020 Road Maintenance Program on Monday, October 5, 2020, weather permitting.

The following roadways will be resurfaced as part of this year's road maintenance program:

Street	From / To
Cuba Road	South Krueger Road to Old McHenry Road

Construction will start on the west end, at the intersection of S. Krueger Road, and continue east. The work will include asphalt pavement removal (milling), pavement patching, Hot-Mix Asphalt binder course, Hot-Mix Asphalt surface course, restoration of disturbed areas, and other associated improvements. Shoulder restoration will include topsoil, seed and hydromulch. After you notice that the hydromulch is placed along the shoulders, we ask for your assistance in watering as you would your own lawn to help establish the grass.

These improvements will not change the roadway width, profile or elevation.

All driveway aprons will be adjusted to match the new pavement edge. Please note that neither the Village nor the contractor can be responsible for damage to private utilities that are in the public right-of-way, for example, pet fences or irrigation lines. If these utilities are damaged, it will be the homeowner's responsibility to make repairs after the scheduled work is completed.

We recognize there may be times of inconvenience for you while the crews are working; however, we do not expect any of the roadways will be fully closed at any time during construction. However, there will be times the roadways will be limited to one-lane. At those times, traffic will alternate directions under flaggers.

Transportation and mail will continue to run regular routes. Garbage pick-up will also remain on Mondays during the course of the project. We anticipate substantial completion of this project by mid-November.

If you require special assistance or should have any questions concerning this work, please contact our Resident Engineer, Enrique Sanchez, at 847-924-5367, myself at 847-821-6231 or you can contact the Village Hall at 847-634-9440.

Sincerely,  
Gewalt Hamilton Associates, Inc.

Geoffrey L. Perry, P.E.  
Village Engineer
