Re: **Construction Update**  
S. Krueger Road Resurfacing  
Village of Long Grove

Dear Village of Long Grove Resident:

On behalf of the Village of Long Grove, we would like to notify you that Arrow Road Construction and their subcontractors have begun work to resurface S. Krueger Road, from Illinois Route 22 to East Cuba Road. The Village of Long Grove owns the east lane adjacent to the Beaver Creek Estates Subdivision. To date, the storm sewer culvert improvements have been completed.

Arrow Road Construction is scheduled to begin the removal of the existing asphalt (to a depth of 4"), starting on October 8, 2021. After the asphalt is removed, new asphalt will be placed, the road will be striped and any disturbed areas will be restored.

Please note that neither the Village nor the contractor can be responsible for damage to private utilities that are in the public right-of-way, for example, pet fences or irrigation lines. If these utilities are damaged, it will be the homeowner's responsibility to make repairs after the scheduled work is completed.

Restoration of disturbed areas will include topsoil, seed and hydromulch. After you notice that the hydromulch is placed along the shoulders, we ask for your assistance in watering as you would your own lawn to help establish the grass.

We recognize there may be times of inconvenience for you while the crews are working; however, we do not expect any of the roadways to be closed at any time during construction. However, there will be times the roadways will be limited to one-lane. Transportation, garbage collection and mail will continue to run regular routes.

We anticipate completion of this project by the end of October.

If you should have any questions concerning this work, please contact our Resident Engineer, Joe Cascella at 847-418-0653, myself at 847-821-6231 or you can contact the Village Hall at 847-634-9440.

Sincerely,  
Gewalt Hamilton Associates, Inc.

Geoffrey L. Perry, P.E.  
Village Engineer
