Betsy, thank you for your news.

I will certainly keep in touch regarding the repairs to the bridge. We have had some glitches with permits so the repairs won't get started until the weather breaks in the Spring. Because of our terrible weather we are also running late on designating the location and the actual planting of your Dad's oak tree.

It would certainly be perfect timing if the dedication would occur at the same time as the daffodil bloom, but no one can predict that.

Thank you so much and I'll be in touch.

Bobbie

Bobbie,

I have not been very fast, but I finally finished my survey of the family. We all decided we have no objections to changing Robert Parker Coffin Road to whatever name you think is best.

We feel planting an oak tree and rebuilding the covered bridge are ample recognition of Dad's service to Long Grove. We certainly appreciate your recognition of Mom's service to the town by planting a tree and surrounding it with daffodils!

Several of us are hoping to attend your dedication in the spring, so be sure to let us know when that event will take place.

If you have any questions, feel free to contact me.
