

Event Description/Summary:

We will be hosting an outdoor event with live, princesses who will put on a show for children with singing, interactive games, and more.

Parents and children will be roaming around our venue to visit the Tiki Bar and to make some crafts.

We will be serving food on our large commercial grill. We will be getting a permit from Lake County Health Department.

The only amplified music is from a couple "front" speakers that will be playing songs that the princesses will be singing along to. This is planned from 11:00AM-2:00PM.

We do have an idea to get a temporary sign for the event. That sign will be posted soon (in the next couple days) up until the event. While I don't have a concrete design yet, it will most likely be a cheap, outdoor, vinyl sign with a design like the one below.

Thank you, All.
