

# **BROTHERS' FIELD**

## **LONG GROVE, IL**

# **BLUES FEST INFORMATION**

\*Utilize a software program like Google Earth to layout the performance/ stage area and any other areas that may be of interest and or activity.\*

**This map is attached in this email.**

\*Are the 200 attendees spread through the total event or will there be up to 200 at any one time?\*

**We hope to have 50 to 200 people at any given time during the blues fest. We anticipate people staying for some bands and leaving for others. With this “in an out” flow, and taking into account we had about 100 people total last year, these are our guesses for this year. 100 people at one time.**

**Please see attached pictures below for attendance from last year.**

\*More specificity about how music will be amplified, equipment type, equipment arrangement/location(s)\*

**On site, we utilize amplified speakers used for our live music. These speakers are a powered PA speaker system. We have 2 speakers and a subwoofer used to amplify music toward the audience in attendance and those speakers are connected to a mixer which controls the volume. Below, I have attached pictures of the speakers being used.**

\*Amplified music ends at 10 pm. Will other music be playing after that concurrently with stage breakdown?\*

**We will continue house music with our small Bose speakers that are hanging in the tent. These are pointed down and in towards the middle of the tent so the sound stays contained.**

\*Any consideration given to ending the music earlier than 10 p.m.?\*

**We actually do have the live music ending earlier at 9:30pm. The 10:00pm cut off was communicated to serve as a very safe “cut off” time for the music.**

\*How long will the Lake County Sheriff staff be onsite and what will services will they be providing.\*

**We are consulting with the Lake County Sheriff's Department to have the same Auxiliary officers that direct traffic for the Village Fests to come out and help with parking. While we do not anticipate an overwhelming turn out for this, the officers would be available if needed for additional security and flow. While still to be confirmed, the officers would be scheduled from 6:00PM-10:00PM.**

\*How will you be ensuring that patrons will not leave the event confines with open beverages.\*

**Brothers' Field utilizes its own security team which checks for this exact situation. We keep check of open containers and other safety and alcohol related issues when it comes to Brothers' Field patrons.**
