Re: 2023 Road Maintenance Program  
**Construction Commencement Notification**

625 Forest Edge Drive, Vernon Hills, IL 60061

TEL 847.478.9700 ■ FAX 847.478.9701

Dear Village of Long Grove Business Owners, Merchants and Residents:

[www.gha-engineers.com](http://www.gha-engineers.com)

On behalf of the Village of Long Grove, we would like to notify you that construction of roadway improvements at various locations throughout the downtown area is anticipated to commence by Monday, October 16, 2023, weather permitting.

Construction working hours are from 7:00 a.m. to 7:00 p.m. during the week and 8:00 a.m. to 5:00 p.m. on Saturday. We anticipate work shall be completed by early November, weather permitting.

The work consists generally of pavement removal and replacement, spot concrete curb spot repairs, pavement patching, driveway pavement removal and replacement, minor culvert removal and replacement, thermoplastic pavement marking installation, and landscape restoration as needed.

\*During this work, Robert Parker Coffin Road, immediately west of IL Route 83 is scheduled to be closed for two weeks, starting on October 16, 2023. During this two-week period, detour signage will be in place to direct motorists to use Robert Parker Coffin Road to Old McHenry Road, to IL Route 53, to IL Route 83, back to Robert Parker Coffin Road. The detour route is shown on the reverse side of this notice.

The work planned for each roadway segment varies, so not all the work mentioned above will occur over the entire length of the project. Furthermore, please understand that due to the geographical size of this project, work may start and stop in any location as several of the operations are typically completed in phases. The streets scheduled to receive these improvements are as follows;

| <b>Street</b>             | <b>From</b>               | <b>To</b>              |
|---------------------------|---------------------------|------------------------|
| Robert Parker Coffin Road | Archer Parker Lot         | IL Route 83            |
| Robert Parker Coffin Road | IL Route 53               | Schaeffer Road         |
| Long Grove Road           | IL Route 53               | Brightview Landscaping |
| Archer Road               | Robert Parker Coffin Road | Old McHenry Road       |
| Three Lakes Drive         | Robert Parker Coffin Road | Terminus               |
| Three Lakes Court         | Three Lakes Drive         | Terminus               |

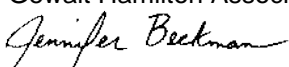

While the operations will likely create brief delays in traveling your street or entering/exiting driveways, there will be no full closures of the streets (minus the detour). Access to all homes and businesses will be maintained, but there will inevitably be delays from time to time. Where concrete curb and/or sidewalk is scheduled to be removed and replaced through driveways, additional notification and instruction will be distributed on an as-needed basis.

Please be advised that all proposed construction is within the Village right-of-way. Where private improvements are in the parkway or Village right-of-way, (such as sprinkler systems, electronic invisible dog fence, landscape features, special decorative rocks, special vegetative plantings, etc.), we will attempt to work around them, but the Village will not repair or replace private improvements within the parkway or Village right-of-way that are damaged during construction operations.

As with any construction project, there will be inconveniences at times and we thank you in advance for your patience and cooperation. The Village and the Contractor are working together to minimize the disruption and inconvenience you will experience. Please travel carefully through the construction zone.

If you require special assistance or should have questions about the project, please feel free to contact our Resident Engineer, Saharah Witte at (901) 303-1012 ([switte@gha-engineers.com](mailto:switte@gha-engineers.com)), myself at 312-806-8727, or you can contact the Village at (847) 634-9440.

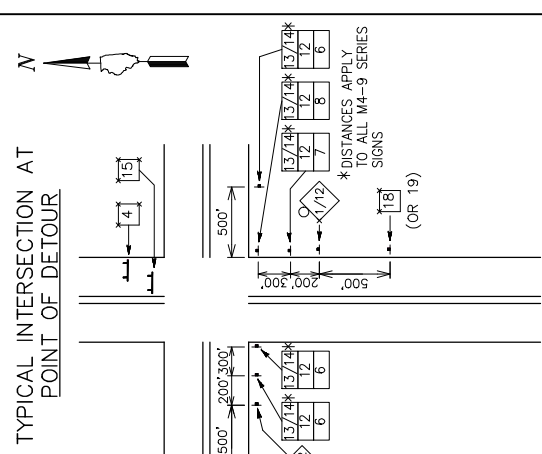

Sincerely,  
Gewalt Hamilton Associates, Inc.

Jennifer Beckman, P.E.  
Senior Construction Engineer
